

## PRODUCT SPECIFICATION

# Polyethylene Glycol 200 (PEG 200)

- Chemical Name** : Polyethylene Glycol
- Molecular Formula** :  $\text{CH}_2\text{OH}(\text{C}_2\text{H}_4\text{O})_n\text{CH}_2\text{OH}$
- HS Code** : 3907201000      **CAS number** : 25322-68-3
- UN Code** : Not Applicable      **DG Class/PKG GP** : Not Applicable
- Applications** : Used in pharmaceuticals, cosmetics, chemical engineering, rubber, metal finishing, pesticide, pigment and spinning & weaving fields. It is also one of the main materials for ester type surface active agent.
- Packaging** : 225kg per steel drum, 18MT per 20-ft FCL container without pallet

Characteristics	Unit	Guaranteed Values
Appearance @ 25°C	-	Clear liquid
Color	-	A - 40 Max.
pH (5% aq.)	-	5 - 7
OHV (Hydroxyl) Value	Mg KOH/g	534 - 590
Moisture	wt%	0.5 Max
